

## Factors of Production Crest

Great Britain was the first nation to industrialize because it had the essential elements that a nation needs to achieve economic success. They had the necessary factors of production (land, labor and capital).

**Directions:** Create a crest (emblem or symbol) that represents the elements of the *Factors of Production* needed for economic success.

1. Show what each factor of production refers while showing how the three combine to create a successful industrial society.
2. Write a brief explanation of your crest in which you explain the following:
  - a. What each *Factor of Production* is...
  - b. Why the *Factors of Production* are important to creating a successful industrial society...
  - c. Why you chose the symbolic representation in regards to the *Factors of Production*...

**Requirements:**

*Factor of Production Crest*

- \_\_\_/5 Land
- \_\_\_/5 Labor
- \_\_\_/5 Capital

*Factor of Production Explanation*

- \_\_\_/5 Land
- \_\_\_/5 Labor
- \_\_\_/5 Capital

*Neatness & Creativity*

- \_\_\_/5 Theme (how the factors of production combine for success), Color & Neatness
- \_\_\_/35 TOTAL

**Rubric:**

	5	4	3	2	1
Crest	The illustrative element reflects a complete understanding of the factor.	The illustrative element reflects a basic understanding of the factor.	The illustrative element reflects some understanding of the factor, but leaves out how it connects with the other factors.	The illustrative element reflects little understanding of the factor in relation to how it influences industrial growth.	The illustrative element reflects no understanding of the factor in relation to how it influences industrial growth and does not connect it to the other factors.
Explanation	The explanation accurately describes the factor, matches the design and clearly explains the reason as to why the factor helped spur industrial growth.	The explanation describes the factor, matches the design and explains the reason as to why the factor helped start spur industrial growth on a minimal level.	The explanation describes the factor, somewhat matches the design, but does not explain the reason as why the factor helped spur industrial growth.	The explanation incorrectly describes the factor and very little of the explanation matches the design and does not address why it lead to industrial growth.	The explanation does not describe the factor, match the design or mention how it caused industrial growth.
Neatness & Creativity	The crest is of excellent quality and it is apparent that the student spent time in preparing it by adding detail and color.	The crest is of good quality and it is apparent that the student spent some time with additional detail and some color.	The crest is of good quality, but seems rushed and is not complete.	The crest is of fair quality and seems rushed or is incomplete.	The crest appears to have been hastily created as it appears messy and disorganized and portions are missing.

**Example:**

\*Notice how all factors are combined to show how they work together

**Land:** Burning Coal

**Labor:** Tools Hanging on String of Bag & Tool Belt

**Capital:** Money Bag & Money coming out of Bag
