

World Map: Geography

Directions: Properly **Locate, Label, and Color** (I suggest different colors within each region - don't color regions near each other the same color) the following countries, regions, or bodies of water on the world map. You will need to know all of the following for a map quiz and for the remainder of the year. Be as neat as possible **and** you **MAY NOT number or create a key as a label** you must actually **WRITE** the name on the map NEATLY (although you can draw arrows from the area to a margin area - I would trace the arrow the same color you of the nation)!

<i>Bodies of Water</i>	<i>The Americas</i>	<i>Europe</i>	<i>Asia</i>
Atlantic Ocean	Cuba	Belgium	Bangladesh
Indian Ocean	Mexico	France	Cambodia
Mediterranean Sea	Puerto Rico	Germany	China
Pacific Ocean	U.S.A	Great Britain	India
